on an amazing learning  
adventure!

**The MISSION** of our St. Ann Preschool Program is to enhance each child's spiritual, social, emotional, physical, and mental growth. The early childhood years are formative. A child's values and attitudes take root in the early years — towards self, God, others, all of creation, life, learning, acting responsibly, independently, and interdependently. Our program strives to provide a loving and supportive environment that encourages your child to explore, experiment, create and express themselves as they develop a positive self image. The teacher and the teacher-assistant facilitate learning, guide the children when needed, and offer comfort, encouragement, support, advice and knowledge. We stress that each child is a special and precious work of God with a uniqueness all one's own.
